3.0 MIL MATTE WHITE VINYL CLEAR PERMANENT ADHESIVE

GF 214 is a 3.0 mil matte white vinyl with a permanent clear acrylic pressure sensitive adhesive on a 90# layflat liner. This vinyl film is designed to accept a variety of solvent, eco solvent, latex and UV curable inks common to wide format digital printing systems. This adhesive produces permanent bonds to a variety of common substrates used in graphics applications. The 90# lay flat liner provides excellent dimensional stability for printing and post processing.
