

# SPWOVEN

280 gsm Premium Poly-Woven Fabric  
with NFPA 701 fire retardant certificate

**READ&Co.**

## A Premium Poly-Woven Fabric with NFPA 701 Fire Retardant Certificate

- Full 126" wide premium fabric
- Ideal for art décor, fine art reproduction, wall murals, backdrops, and backlit displays
- Compatible with UV curable, latex printers and dye sub transfer
- Can be folded and stretched without cracking
- Wrinkle resistant
- Excellent color brilliance and image definition

## Lamination & Mounting

This product has been tested and approved for use with Read&Co. laminates and adhesives. Read Inkjet laminates provide durable protection from abrasion, moisture, Ultraviolet light and various types of damaging effects on indoor and outdoor applications. Recommendations for cold/pressure sensitive lamination and adhesives are SPEED: 3-5 feet per min and PRESSURE: 20-40psi (recommendations vary depending on the laminator, model and other variables). Read Lamination and Adhesives provide quick and efficient quality results without the need for heat.

## UV Curable, Latex And Dye Sub Transfer Compatibility

This product is compatible with UV curable, latex digital inkjet printers and dye sub transfer. Read&Co inkjet materials provide an expanded color gamut and higher ink saturation for richer, more brilliant colors. Individual results may vary. Test thoroughly for your specific application.
